### Description

The complete list of store products can be found under Catalog > Products. If this is your first time in the Product section, you will notice the default products left over from the installation. These products can be used to experiment with and explore the OpenCart features before launching your store. You will eventually need to delete these products to make room for your store's products.

### **Description**

This option allows you to choose how often a user will make a payment. In the example, the cycle is "1," and the frequency is "month," causing the user to be billed monthly. If you wanted your customer to be billed every three weeks, you would choose "3" as the cycle, and "week" as the frequency.

### Description

As the attributes have been created, we need to edit the individual products to contain these attributes. To be consistent, we will add "Aspect Ratio" and "Monitor Dimensions" to all of our laptop products. We don't want a scenario where our customers need to compare different laptop products, but only one or two of our laptops has the "Aspect Ratio" listed to compare.

### Description

The Orders section is located under Sales > Orders. On this page, every order ever made from the store is listed in detail.

The following details are displayed for each order on the list:

- Order ID: a number assigned to an order by OpenCart during the checkout confirmation
- Customer: the name of the customer that made the order.
- Status: update of the status of the order. After the order is initially created the status will be "Pending". The default options are Missing Orders, Canceled, Canceled Reversal, Chargeback, Complete, Denied, Expired, Failed, Pending, Processed, Processing, Refunded, Reversed, Shipped, and Voided.
- **Total**: the total price of the order.
- Date Added
- · Date Modified.

## [SAD-11] Changing a language in the store front

Created: 12/May/24 7:29 PM - Updated: 30/Jun/24 10:17 AM

Status: Backlog

Project: ST4\_Andreea Dragastan

Component/s: None Fix Version/s: v1.0

Type:TaskPriority:MediumReporter:IT FactoryAssignee:Unassigned

**Resolution:** Unresolved **Votes:** 0

Labels: None

Original Estimate: Not Specified
Remaining Estimate: Not Specified
Time Spent: Not Specified

### Description

Saving a language pack in Localisation will make it immediately available in the store front. The language area is located in the header of every page, from the left top corner. In achieve the example below, a French language pack was downloaded and FTP'd to OpenCart. By assigning French an assorting order of 2, it is displayed below of English in the header of every page of our store. The customer can click on the French flag in the header to change the language.
